1 About the Imperial Society Of Teachers Of Dancing (ISTD)

The Imperial Society of Teachers of Dancing (ISTD) exists to inspire, teach and support dancers and dance teachers around the world; making teaching and learning dance accessible to all.

Our membership is recognised as the mark of quality dance training globally. We support teachers to develop their careers and business through progressive training, performance qualifications and events. Together we aim to build a diverse and sustainable dance profession by championing inclusion and increasing access to dance teaching.

Since 1904, we've provided quality dance training across a diverse range of genres – enabling our members to inspire their students with a passion for dance. Our dance syllabi are carefully structured to support both children and adults in developing and progressing their technical dance skills.

Our clearly defined structure allows learning to take place in the context of safe dance practice and is designed to cater equally for those who wish to progress to make dance their profession. We offer a range of teacher training routes and pathways to develop careers into teacher training and examining.

The Society is a registered educational charity (250397), regulated examinations board and membership association. Find out more istd.org

2 ISTD Imperial Classical Ballet

Ballet is one of the world's most popular forms of dance. It is taught in dance schools on every continent and thousands of ballet companies all over the world perform works both old and new to appreciative audiences. Professional ballet dancers are widely known for their extraordinary artistry, athleticism and technical skills, which, in performance, transport audiences to magical worlds of imagination and beauty. At its heart is a versatile technique which is continuously evolving and adapting to new dance forms.

The aesthetic of ballet is based on classical ideals of balance, harmony and proportion. These are found throughout nature, not least in the human body itself, which is naturally vertical, symmetrical and balanced. These classical ideals are based on the geometrical principles of a mathematical rule called the Golden Section which dictates the shape of everything around us, from the patterns of our fingerprints to the structure of a leaf or a snowflake and even the spiral of a galaxy. Architects have used this rule to build amazing buildings both ancient and modern; and classical ballet uses it too, echoing and reflecting the spirals, circles and straight lines of the natural world in the shapes and lines of the dancer, both on the spot and travelling through the space.

Early ballet

Where did it all start? Ballet evolved over 500 years ago during the Renaissance in the 17th century Italian and French courts. Conceived as a way of displaying power and beauty, it was considered a noble skill for both royalty and courtiers. Although it was a court activity it drew its inspiration from local folk dances and their patterns – circular, advancing/retreating, opening/closing – all of which are also reflected in nature.

This image of King Louis XIV of France shows him performing as the Sun King, his turned-out arms and legs illustrating one of the key technical elements of classical ballet. Turnout, which Louis XIV introduced to show off the highly decorated heels of his shoes, enables long open lines, increased range of movement, and opening and closing actions of the arms (port de bras) and legs.

Early ballet movements were always performed forwards, towards the king, as the most important person in the court. Over time, ballet became established as a professional, theatrical art form with a stage and an auditorium, where the audience beyond the stage naturally replaced the king as the dancers' front. Through the eighteenth and nineteenth centuries, Italian dancers, choreographers, teachers and musicians established themselves in the main opera houses of Europe and Russia, and distinctive French, Italian, Danish and Russian styles or schools emerged, all united by the core principles of classical ballet.

Evolution of the art form

Classical ballet technique is quick to respond to the great cultural and intellectual movements of the day. In the first half of the nineteenth century, the Romantic movement, with its focus on emotion, individualism and the idealization of nature, was the stimulus for many story ballets about fairies and ghosts some of which, including *Giselle* (ch. 1841) by Jean Coralli and Jules Perrot for the Paris Opera, are still performed today. At this time, the development of the pointe shoe allowed ballet dancers to appear weightless and otherworldly, extending their limbs with ethereal lightness.

By the end of the nineteenth century ballet had moved into a new era of classicism, dominated by choreographer Marius Petipa at the Mariinsky Ballet in Russia. Ballets such as *The Sleeping Beauty* (ch. 1890) and *Swan Lake* (ch. 1895) were set to music by Tchaikovsky, embodying a harmonious balance between music, movement, design and story. These ballets remain today at the heart of the classical ballet canon for all major companies, ensuring dancers have the skills to meet the technical and artistic demands of present-day choreographers and providing inspiration for modern companies.

Petipa's work came to Europe and the rest of the world with Serge Diaghilev's Ballet Russes (1909-29) and went on to widely influence the development of twentieth century ballet companies in Britain, North and South America, Canada and Australia. The Ballet Russes brought with them not only these fine classical ballets rooted in tradition but also a radical and creative drive to innovate, which remains an inspiration to choreographers today.

In Britain, Diaghilev recruited dancers for his company from the British Isles, amongst them Marie Rambert, founder of Rambert Dance Company (1926) and Dame Ninette de Valois, founder of The Royal Ballet School (1926) and The Royal Ballet (1931). Prima Ballerina Dame Margot Fonteyn was the muse of choreographer Frederick Ashton who developed the English style, rich in musicality, theatricality and fluidity of movement.

Ballet today

Diaghilev dancer, George Balanchine, became one of the most influential choreographers of the twentieth century. The founder of New York City Ballet (1948), his athletic, hyper-articulate and open American style has both re-defined classical ballet and influenced genres such as modern theatre, jazz and contemporary dance, encouraging the continuing development of exciting and inclusive new approaches to ballet. Through his foundation of the School of American Ballet he expanded the art form and promoted integration and inclusion, bringing artists into the company from diverse backgrounds.

His first Black principal dancer, Arthur Mitchell, went on to found Dance Theatre of Harlem at the height of the civil rights movement in 1960s America and Balanchine choreographed his first ballet, *Concerto Barocco*, for the company in 1970. DTH remains to this day a powerful advocate for the artistic richness an inclusive company can offer, and, alongside companies such as Alvin Ailey American Dance Theatre, has paved the way for the continuing diversification of ballet schools and companies internationally.

Classical ballet today remains the inspiration for an explosion of creative approaches to dance across the world. It's for everybody. Choreographers with roots in diverse genres gravitate towards classical ballet dancers for their extraordinary adaptability, technical agility and versatility; and their works refresh and regenerate the art form for modern audiences whilst cherishing and respecting the legacy of the past. Examples of this can be seen in the successful collaborations of English National Ballet with choreographer Akram Khan (Indian classical dance – Kathak - and contemporary dance) and The Royal Ballet with Wayne McGregor (contemporary dance), both of whom have become internationally renowned artists.

About the syllabus

Imperial Classical Ballet is based on the teaching of the French School at the Paris Opéra. The syllabus, first written in 1913, has evolved to promote the English classical ballet style and to address the changing needs of ballet dancers today. Focused on encouraging a sound basic technique and an understanding of musical interpretation, it provides the essentials of a pure classical training and is an ideal vehicle for training the dancers of tomorrow.

The ICB syllabus is always evolving but at its heart is the embodiment of musicality and artistry, creating versatile dancers who are prepared for a future in the vibrant and ever-changing world of dance. Over its long history, the ISTD Imperial Classical Ballet Faculty in all its manifestations has supported ballet training, endorsing the *raison d'être* enshrined in its first objective as: "The elevation and advancement of the Art of Dancing, and the preservation of its ancient prestige and dignity." (d'Albert, 1918)

Class Examinations: Pre-Primary, Primary & 1-8 Specification

4 Qualification purpose: Class Examinations

In this section, you will find information on the purposes of the following qualifications in this specification:

Imperial Classical Ballet Class Examinations.

Ballet is a key dance skill which develops core strength, coordination, line, placement and flexibility along with the requisite artistry and musicality. Students build a sound technique and understanding of the genre through studying the Imperial Classical Ballet syllabus, at the same time as developing the physical ability to communicate through movement in an expressive and artistic way.

The Imperial Classical Ballet Class Examinations are non-regulated qualifications which provide an assessment scheme for ballet that forms the basis for the measurement of the individual candidate's progress and development. The Class Examinations can also be taught in conjunction with the Graded Examinations to allow consolidation of technique before embarking on the next grade.

There are ten practical class examination grades beginning with Pre-Primary, then Primary and then Class Examinations 1 to 8 (8 represents the highest level of attainment).

As well as traditional classical exercises the examination structure includes a group mime, enchaînements danced ensemble, group dances and character work; these sections promote an awareness of working together as a performance unit, showing consideration to fellow members in the group. From the Class Examinations it is possible for some candidates to progress to the Vocational Graded Examinations as preparation for further or higher education, full time dance training, employment as a professional dancer or as preparation for dance teaching qualifications.

The syllabus is designed to build technical and performance skills for all candidates whilst promoting inclusivity and safe dance practice. Within the syllabus, some exercises offer the option of teacher/candidate choice.

Aims

- To educate by providing a progressive awareness of the culture and technique of Classical Ballet through a graded programme of training and assessment
- To provide a form of physical training that is safe, working both sides of the body evenly, alongside the development of artistic and musical appreciation
- To provide a structured examination system that can be followed by children who are studying Classical Ballet primarily as a recreational pursuit. However, this does not preclude the child who wishes to progress to vocational training in Classical Ballet and other theatrical dance forms.

Objectives

The objectives of the Imperial Class Examinations are:

- A sense of performance which incorporates a suitable awareness of style and expression
- Use of space in relation to the other members of the group and the dance area available
- Rhythmic awareness and a suitable interpretation of the musical qualities
- Correct alignment and placing of the body to the best of the individual physical facility
- Appropriate use of limbs, with an understanding of the purpose of each exercise, thus developing motor skills
- Sense of line and co-ordination of movement
- An appreciation of artistry, both in own movement and that of others
- Consideration and respect
- Creativity within a disciplined environment.

5 Entry conditions and general information: Class Examinations

Entry conditions

Entries must be submitted via a teacher who holds Full Teaching Membership membership with the Imperial Society of Teachers of Dancing.

Summary information

Pre-Primary - Class Examination 4: the teacher joins the candidates in the exam studio, introduces each candidate by name to the examiner and conducts the examination. The teacher may do so in the candidates' own language. The order of the syllabus should be reasonably adhered to.

Class Examinations 5 and 6: the teacher can choose to conduct the examination or request the examiner to do so.

Class Examinations 7 and 8: the examiner conducts the examination.

Each candidate wears a number on their front, and they are placed with the lowest number to the examiner's left.

Candidates should, where possible, be entered in groups of four for Class Examinations up to and including Class Examination 6. In exceptional circumstances one group of five per timetable is permitted. There is no minimum number of candidates at any level and teachers who have only one or two candidates may enter them for these examinations. Class Examinations 7 and 8 are examined in maximum groups of three.

The following time allowances include a five-minute writing period for the examiner therefore the syllabus demonstration must be completed five minutes before the time allowance given.

Examination	Number of candidates	Age	Time allowances		
			1 or 2 candidates	3 or 4 candidates	5 candidates
Pre-Primary & Primary	1 – 5	5+	25 minutes	30 minutes	30 minutes
1	1 - 5	6+	25 minutes	30 minutes	30 minutes
2	1 - 5	7+	35 minutes	40 minutes	40 minutes
3 & 4	1 - 5	8+	35 minutes	40 minutes	40 minutes
5 & 6	1 - 5	8+	40 minutes	45 minutes	45 minutes
7 & 8	1 - 3	13+	30 minutes	35 minutes*	N/A

*max. 3 candidates

Each learner will receive an individual report and result which will reflect their own personal achievement.

Musical accompaniment

A pianist or recorded music may be used for all Class Examinations. The teacher is responsible for providing the pianist.

The music system operator should be seated at a discreet distance from the examiner and must not face the candidates or communicate with them in any way. Teachers are reminded that under no circumstances can CDs be operated by the teacher, a candidate, or a parent of a candidate. Non-Imperial Classical Ballet teachers from other schools can operate the music.

Clothing

A Clothing Guide is available on the ISTD website istd.org/examination and from imperialballet@istd.org

Jewellery is discouraged. If piercings cannot be removed studs are acceptable. Hair should be suitably styled for classical ballet and candidates should be smartly presented for the examination.

Studio layout for the examination

At the barre, all candidates must stand on the same side. The teacher must provide enough barres to accommodate all candidates and take into consideration that older, taller candidates will need more space.

Teachers should select the most suitable studio layout for the examination, to allow candidates to demonstrate fully. Teachers should ensure mirrors are covered or made opaque. Examiners require a table and a comfortable chair. Teachers should also provide a bell for the Examiner to ring when they are ready for the candidates to enter the studio at the start of the examination.

6 Qualifications

This section sets out the required teaching and learning content and how they should be delivered. The learning and teaching content for each qualification in the specification is set out in a similar way. Learners should take examinations only once the learning and teaching content have been covered in full.

7 Scheme of Assessment: Class Examinations

Method of assessment

Examinations are assessed by an Examiner who is recruited, trained, and monitored by the ISTD.

ISTD Examiners:

- are selected for their expertise and undergo rigorous training which continues throughout their career for marking both face-to-face and remote examinations
- create a welcoming and reassuring environment at the exam venue, ensuring a positive experience for candidates
- complete a check with the Disclosure and Barring Service (or equivalent body where available) and adhere to ISTD policies and procedures, including equality and diversity, safeguarding and data protection

In the examination the examiner awards a mark of between 0 and 10 or 0 to 20 for selected components (shown on the accompanying grid). A mark of 0 indicates that nothing worthy of credit was presented for assessment.

The examination is divided into sections and each section consists of several components which are individually assessed and aggregated to give the section total. The total number of marks available in the examination is 100.

Determining a mark

The marks for each section of assessment are added together and an overall mark is given out of 100.

Determining a grade for class examinations

To reflect the need for competence across the range of sections, a candidate will **not** attain a grade if less than 25% of the marks attainable are given for any **one** section.

Where 25% of the marks attainable does not come to a round figure, e.g. 12½, the pass mark for the section is lowered to the nearest round figure, in this example, 12.

Results are indicated as follows:

Grade	Marks
Distinction	80-100 marks
Merit	60-79 marks
Pass	40-59 marks
Not Attained	0-39 marks

Please note: Where a candidate is unsuccessful in one or more sections, the total mark given out of 100 will not correspond to the result indicators in the chart. In this circumstance, whatever the overall numerical mark may be, the result given will be Not Attained.

Class examination mark schemes

Each component of the assessment is shown on the grid as a column and broken down into mark bands, each of which has a descriptor. The descriptor indicates the quality that is expected in the candidate's evidence for that mark band. The indicative content for each component of assessment is exemplified or stated at the bottom of each column/group of columns.

Mark bands

The lower mark in each band indicates that the student has just met the requirement described in the band, the upper mark indicates that the evidence is clear but that the student has not quite met the requirements set out in the next mark band.

The candidate is marked against all components of assessment.

Classification of results

Candidates receive both a final mark and an attainment grade. It is not expected that a candidate in a particular attainment grade will necessarily demonstrate all of the characteristics listed in that band but will demonstrate most.

Attainment grade descriptors

Distinction: 80-100 marks

A candidate who achieves a '**Distinction**' will demonstrate the following attributes in performance:

- extremely strong technique
- high clarity of intention in execution of the movement
- excellent precision in the technique of the genre
- excellent use of dynamics and spatial elements
- very confident and accurate responses to instructions, questions asked and/or tasks set
- very strong performing skills.

Merit: 60-79 marks

A candidate who achieves a '**Merit**' will demonstrate the following attributes in performance:

- well established technique
- good clarity of intention in execution of the movement
- good precision in the technique of the genre confident use of dynamics and spatial elements
- confident and accurate responses to instructions, questions asked and/or tasks set
- strong performing skills.

Pass: 40-59 marks

A candidate who achieves a '**Pass**' will demonstrate the following attributes in performance:

- generally established technique
- some clarity of intention in execution of the movement
- some precision in the technique of the genre
- fair understanding of the use of dynamics and spatial elements
- broadly relevant and mostly appropriate responses to questions asked and/or tasks set
- secure performing skills.

Not attained – 00-40 marks

A candidate who achieves a '**Not attained**' will demonstrate the following attributes in performance:

- poor or limited technical accomplishment
- limited clarity of intention in execution of the movement
- poor or limited grasp of the technique of the genre
- limited understanding of the use of dynamics and spatial elements
- weak or limited response to questions asked and/or tasks set
- weak or limited performing skills.

Grades: Primary & 1-6 Specification

8 Qualification purpose - Graded Examinations

In this section, you will find information on the purposes of the following qualifications in this specification: Imperial Classical Ballet Graded Examinations.

Primary Grade in [Imperial Classical Ballet](#) (non-regulated qualification)

Level 1: Grade 1 in [Imperial Classical Ballet](#)

Level 1: Grade 2 in [Imperial Classical Ballet](#)

Level 1: Grade 3 in [Imperial Classical Ballet](#)

Level 2: Grade 4 in [Imperial Classical Ballet](#)

Level 2: Grade 5 in [Imperial Classical Ballet](#)

Level 3: Grade 6 in [Imperial Classical Ballet](#)

The Graded Examinations in Imperial Classical Ballet, from Primary through to Grade 6, provide an assessment scheme for ballet which forms the basis for the measurement of the individual candidate's progress and development, whether the candidate is pursuing dance as a leisure activity or as preparation for a professional career as a dance teacher or performer. This progressive training system, with a clearly defined structure, ensures that steps and skills learned at lower levels prepare for more complex movements as candidates progress and that learning takes place in the context of safe dance practice.

They are designed to function in tandem with the non-regulated Imperial Classical Ballet Class Examinations, so that teachers can enter students for equivalent exams at each level to act in a complementary fashion. Equally, teachers can select either one strand or the other, to best suit their students.

There are seven practical examination grades, beginning with Primary and then Grades 1 to 6 (6 represents the highest level of attainment).

Ballet is a key dance skill which develops core strength, coordination, line, placement and flexibility along with the requisite artistry and musicality. Students build a sound technique and understanding of the genre through studying the Imperial Classical Ballet syllabus, at the same time as developing the physical ability to communicate through movement in an expressive and artistic way.

From the Graded Examinations, candidates can progress to the Vocational Graded Examinations as preparation for further or higher education, full time dance training, employment as a professional dancer or as preparation for dance teaching qualifications.

Aims

- To educate by providing a progressive awareness of the artistry and technique of Imperial Classical Ballet through a graded and systematic programme of training and assessment.
- To develop artistic and musical appreciation whilst providing a safe form of physical training.
- To provide a structured examination system suitable for learners who aim to progress to vocational training and for those who wish to study classical ballet primarily as a recreational pursuit.

Objectives

The objectives of the Imperial Classical Ballet Graded Examinations are to show:

- Correct posture, classical body alignment, placing and maintenance of turnout
- Strength, suppleness, balance and poise in adage movements
- Articulated use of the feet, ballon and elevation in allegro movements
- Harmonious, co-ordinated and sensitive use of port de bras
- Rhythmic awareness, interpretation of musical qualities and artistic expression
- Understanding of classical ballet vocabulary
- An alert response to instructions
- Appropriate use of space in relation to the other members of the group and the dance area available
- Confidence and sense of enjoyment in performance.

9 Qualification structure and regulation

Non-regulated examination: Primary Grade examination

Regulated examinations: Grade 1, Grade 2, Grade 3, Grade 4, Grade 5, and Grade 6 Vocational exams

Regulation – UK

ISTD Graded Examination qualifications are regulated in the UK by:

- Office of Qualifications and Examinations Regulation (Ofqual) in England
- Qualifications Wales
- Council for Curriculum, Examinations and Assessment (CCEA Regulation) in Northern Ireland.

The Regulated Qualifications Framework (RQF) provides a single, simple system for cataloguing all regulated qualifications, indicating qualifications by their level (degree of difficulty) and size (amount or breadth of learning).

Size is indicated by a credit value, corresponding to a term used in the title. An Award is worth 1-12 credits, a Certificate is worth 13-36 credits, and a Diploma is worth 37 or more credits.

One credit corresponds to 10 hours of learning for the typical learner, which is divided into Guided Learning hours (GLH), which is broadly contact time with the teacher, and personal study time, which together make Total Qualification Time (TQT).

The ISTD's qualifications on the Regulated Qualifications Framework (RQF) are as follows:

Guided Learning Hours (GLH) describes the amount of time the learner has spent in class under the direct supervision of their teacher.

Total Qualification Time (TQT) includes all of the Guided Learning hours plus further independent study undertaken by the learner.

Qualification title	Qualification number	Guided Learning Hours (GLH)	Total Qualification Time (TQT)	Credits
Grade 1 (Imperial Classical Ballet): ISTD Level 1 Certificate in Graded Examination in Dance	501/0755/0	60	70	7
Grade 2 (Imperial Classical Ballet): ISTD Level 1 Certificate in Graded Examination in Dance	501/0753/7	60	70	7
Grade 3 (Imperial Classical Ballet): ISTD Level 1 Certificate in Graded Examination in Dance	501/0754/9	60	70	7

Regulation – Europe

The European Qualifications Framework (EQF) is an overarching framework that links the qualifications of different countries together and allows for comparison and translation. The EQF has eight levels across which qualifications can be mapped. The levels do not correspond directly with the UK's Regulated Qualifications Framework (RQF), although they are similar. The following table shows the level of our Vocational Examination qualifications on the RQF and the EQF.

Qualification title	RQF Level	EQF Level
Grade 4	Level 2	Level 3
Grade 5	Level 2	Level 3
Grade 6	Level 3	Level 4

UCAS points

In the UK, our Graded Examination qualifications can contribute towards entry into higher education through the allocation of UCAS points. UCAS tariff points translate your qualifications and grades into a numerical value, which some universities, colleges, and conservatoires may refer to in their course entry requirements.

UCAS points only apply to ISTD graded and vocational dance examinations at Regulated Qualifications Framework (RQF) Level 3 as listed below.

Grade 6	Tariff points	Intermediate	Tariff points
Distinction	14	Distinction	33
Merit	10	Merit	27
Pass	8	Pass	24

Equivalence of qualification levels

Qualification level	Level	Equivalence
Grade 4	2	Equivalent to GCSE standard
Grade 5	2	Equivalent to GCSE standard
Grade 6	3	Equivalent to A-Level and T-Level standard
Intermediate	3	Equivalent to A-Level and T-Level standard

10 Entry conditions and general information

Entry conditions

Entries must be submitted via a teacher who holds Full Teaching membership with the Imperial Society of Teachers of Dancing.

Prior learning

To ensure safe dance practice, learners undertaking Imperial Classical Ballet Graded Examinations should have suitable levels of physical and technical skill to meet the demands of the grade they are entering.

Graded Examinations in Imperial Classical Ballet are designed to be taken consecutively and most candidates will progress through them in sequence to develop and consolidate dance vocabulary, physicality and technical skill. However, where there is prior learning, this is not compulsory. In cases where examinations in the previous grade have not been taken the candidate needs to be at an appropriate level of physical and artistic development for the grade they are being entered. Before a candidate enrolls in a class leading to a Graded Examination, teachers are therefore under a particular duty of care to assess the achievement of the candidate, particularly regarding safe dance practice.

Candidates may be examined together at all Grade levels.

Learners should take examinations only once the learning and teaching content have been covered in full. The syllabus is designed to build technical and performance skills for all candidates whilst promoting inclusivity and safe dance practice. Within the syllabus, some exercises offer the option of teacher/candidate choice. At Grade 6, Options A (formerly female) or B (formerly male) are offered in the syllabus to accommodate individual physical strengths, aptitudes and preferences.

Teachers/candidates are advised to select the option most suitable for the individual.

Language

All exams and assessments are conducted in English.

Summary information

Candidates should be entered in fours where possible. In grades examinations there is no option to enter five candidates. Where there is an odd number of candidates, the extra candidate should be entered with a pair to make a group of three.

Examination	Age	Time allowances		
		1 or 2 candidates	3 candidates	4 candidates
Primary	6+	20 minutes	25 minutes	25 minutes
Grade 1	7+	20 minutes	30 minutes	30 minutes
Grade 2	7+	30 minutes	35 minutes	35 minutes
Grade 3	7+	35 minutes	40 minutes	40 minutes
Grade 4	9+	40 minutes	45 minutes	45 minutes
Grade 5	9+	45 minutes	50 minutes	50 minutes
Grade 6	11+	55 minutes	60 minutes	60 minutes

Please note: to avoid confusion for some candidates who are already being prepared, teachers may enter aged five candidates for Primary Grade and aged six candidates for Grade 1 until September 2024.

From September 2024, Primary Grade and Grade 1 candidates' minimum ages will be six and seven years respectively. The 60-day leeway for children young in their year group continues to apply and the Examinations department checks all ages at the point of application.

Musical accompaniment

A pianist or recorded music may be used for all Graded Examinations. The set dances may be performed with live piano or recorded music. The teacher is responsible for providing the pianist.

Music system operators should be seated at a discreet distance from the examiner and must not face the candidates or communicate with them in any way. Teachers are reminded that under no circumstances can CDs be operated by the teacher, a candidate, or a parent of a candidate. Non-Imperial Classical Ballet teachers from other schools can operate the music.

Clothing

A Clothing Guide is available on the ISTD website istd.org/examinations and from imperialballet@istd.org

Jewellery is discouraged. If piercings cannot be removed studs are acceptable. Hair should be suitably styled for classical ballet and candidates should be smartly presented for the examination.

Studio layout for the examination

At the barre, all candidates must stand on the same side. The teacher must provide enough barres to accommodate all candidates and take into consideration that older, taller candidates will need more space.

Teachers should select the most suitable studio layout for the examination, to allow candidates to demonstrate fully. Teachers should ensure mirrors are completely covered or made opaque. Examiners require a table and a comfortable chair. Teachers should also provide a bell for the Examiner to ring when they are ready for the candidates to enter the studio at the start of the examination.

11 Qualifications

This section sets out the required teaching and learning content and how they should be delivered. The learning and teaching content for each qualification in the specification is set out in a similar way.

Syllabus content: Grade 6

The syllabus is designed to develop broad strengths and abilities for all candidates. There are two pathways available in Grade 6 for candidates to accommodate differing physical strengths and capabilities: Option A and Option B. These variations are designed within the context of industry needs and safe dance practice. It is therefore advisable for candidates to follow the relevant exercises from Option A or Option B most suitable for the individual. For safe dance practice, teachers/candidates must select **one pathway only**.

Candidates are expected to combine any movements contained in this and previous syllabi into simple sequences set by the examiner. Candidates are also expected to have knowledge of the French terms used.

12 Scheme of assessment: Graded Examinations

Method of assessment

Graded Examinations are assessed by an Examiner who is recruited, trained, and monitored by the ISTD.

ISTD Examiners:

- are selected for their expertise and undergo rigorous training which continues throughout their career for marking both face-to-face and remote examinations
- create a welcoming and reassuring environment at the exam venue, ensuring a positive experience for candidates
- complete a check with the Disclosure and Barring Service (or equivalent body where available) and adhere to ISTD policies and procedures, including equality and diversity, safeguarding and data protection

In the examination the examiner awards a mark of between 0 and 10 for each component (shown on the accompanying grid). A mark of 0 indicates that nothing worthy of credit was presented for assessment.

The examination is divided into sections and each section consists of several components which are individually assessed and aggregated to give the section total. The total number of marks available in the examination is 100.

Determining a mark

The marks for each component of assessment are added together and an overall mark is given out of 100.

Determining a grade for graded examinations

Candidates must gain at least 25% of the marks attainable in each section in order to pass the examination overall. In cases where 25% of the marks attainable does not come to a round figure, e.g. 12½, the pass mark for the Sections is lowered to the nearest round figure, in this example, 12. The section totals are aggregated and the overall mark is given out of 100.

To reflect the need for competence across the range of sections, a candidate will **not** attain a grade if less than 25% of the marks attainable are given for any **one** section.

If all components are achieved, then the overall grade is indicated as follows:

Grade	Marks
Distinction	80-100 marks
Merit	60-79 marks
Pass	40-59 marks
Not Attained	0-39 marks

Mark schemes for Primary, Grade 1, Grade 2, Grade 3, Grade 4, Grade 5 and Grade 6

Each component of the assessment is shown on the grid as a column and broken down into mark bands, each of which has a descriptor. The descriptor indicates the quality that is expected in the candidate's evidence for that mark band. The indicative content for each component of assessment is exemplified or stated at the bottom of each column/group of columns.

Mark bands

The lower mark in each band indicates that the student has just met the requirement described in the band, the upper mark indicates that the evidence is clear but that the student has not quite met the requirements set out in the next mark band.

The candidate is marked against all components of assessment.

Classification of results

Candidates receive both a final mark and an attainment grade. It is not expected that a candidate in a particular attainment grade will necessarily demonstrate all of the characteristics listed in that band but will demonstrate most.

Specification**

13 Qualification purpose: Vocational Graded Examinations

In this section, you will find information on the purposes of the following qualifications in this specification: Imperial Classical Ballet Vocational Graded Examinations.

Level 2: Intermediate Foundation in [Imperial Classical Ballet](#)

Level 3: Intermediate in [Imperial Classical Ballet](#)

Level 4: Advanced 1 in [Imperial Classical Ballet](#)

Level 4: Advanced 2 in [Imperial Classical Ballet](#)

The Vocational Graded Examinations in Imperial Classical Ballet, from Intermediate Foundation through to Advanced 2, develop the candidate's expertise to provide the basis for either professional employment as a dancer or further training as a dance teacher.

These examinations offer a vocational path, requiring a high level of professionalism, commitment and focus and with an increasing emphasis on safe dance practice. Successful candidates at this level should show virtuosity in performance, a high standard of technique and a sound knowledge and understanding of the Imperial Classical Ballet genre, including an understanding of reference and context. As distinct from the General Graded Examinations, a greater degree of personal interpretation is encouraged, and the candidate is expected to show the potential to communicate effectively with an audience.

The Vocational Graded Examinations are concerned specifically with the mastery of technique and underpinning understanding, to prepare candidates for further vocational training and match current expectations in the employment sector.

Successful candidates will spend significant additional time each week in lessons, in practicing and in studying independently.

There are four practical examinations, graded to measure appropriate stages of development from a general standard of Imperial Classical Ballet education to that of professional competence and readiness.

The Vocational Graded Examinations are regulated qualifications on the Qualifications and Credit Framework. Intermediate Foundation is located at Level 2; Intermediate is located at Level 3; and Advanced 1 and Advanced 2 are located at Level 4.

Aims

Imperial Society of Teachers of Dancing Vocational Graded Examinations in Imperial Classical Ballet provide an assessment scheme, which give the basis for the measurement of an individual candidate's progress and development, in preparing for professional dance performing or teaching careers. The practical, vocational examinations are graded to measure appropriate stages of development from a general standard of Imperial Classical Ballet education to that of professional competence and readiness.

Objectives

The objectives of the Imperial Classical Ballet Vocational Graded Examinations are to show:

- Correct alignment and placing of the body to the best of the individual's physical facility
- Controlled and appropriate use of limbs, with an understanding of the purpose of each exercise
- Strength and stamina
- Good sense of line and co-ordination of movement
- Highly developed rhythmic and musical awareness
- Artistry and an appreciation of the nuances of style, both in own movement and that of others
- Spatial awareness
- Consideration and respect
- Creativity within a disciplined environment.

14 Qualifications

Regulation – UK

ISTD Vocational Graded Examination qualifications are regulated in the UK by:

- Office of Qualifications and Examinations Regulation (Ofqual) in England
- Qualifications Wales
- Council for Curriculum, Examinations and Assessment (CCEA Regulation) in Northern Ireland.

The Regulated Qualifications Framework (RQF) provides a single, simple system for cataloguing all regulated qualifications, indicating qualifications by their level (degree of difficulty) and size (amount or breadth of learning). There are nine qualification levels in the framework, labelled in order of difficulty from Entry Level to Level 8. For further information, visit register.ofqual.gov.uk.

Size of the qualification on the RQF is indicated by a credit value, corresponding to a term used in the title. An Award is worth 1-12 credits, a Certificate is worth 13-36 credits, and a Diploma is worth 37 or more credits. One credit corresponds to 10 hours of learning for the typical learner, which is divided into Guided Learning hours (GLH), which is broadly contact time with the teacher, and personal study time, which together make Total Qualification Time (TQT).

The ISTD's qualifications on the Regulated Qualifications Framework (RQF) are as follows:

Guided Learning Hours (GLH) describes the amount of time the learner has spent in class under the direct supervision of their teacher.

Total Qualification Time (TQT) includes all of the Guided Learning Hours plus further independent study undertaken by the learner.

Qualification title	Qualification number	Guided learning hours (GLH)	Total qualification time (TQT)	Total credits
Intermediate Foundation: ISTD Level 2 Certificate in Vocational Graded Examination in Dance	501/0764/1	150	275	28
Intermediate: ISTD Level 3 Certificate in Vocational Graded Examination in Dance	501/0728/8	150	275	28
Advanced 1: ISTD Level 4 Certificate in Vocational Graded Examination in Dance	501/0760/4	150	325	33
Advanced 2: ISTD Level 4 Diploma in Vocational Graded Examination in Dance	501/0761/6	150	375	37

Advanced 2: Vocational Graded Examination in Imperial Classical Ballet	T/602/0145	Level 4	150	37

Regulation – Europe

The European Qualifications Framework (EQF) is an overarching framework that links the qualifications of different countries together and allows for comparison and translation. The EQF has eight levels across which qualifications can be mapped. The levels do not correspond directly with the UK's Regulated Qualifications Framework (RQF), although they are similar. The following table shows the level of our Vocational Examination qualifications on the RQF and the EQF.

Qualification title	RQF Level	EQF Level
Intermediate Foundation	Level 2	Level 3
Intermediate	Level 3	Level 4
Advanced 1	Level 4	Level 5
Advanced 2	Level 4	Level 5

UCAS points

In the UK, our Vocational Graded Examination qualifications can contribute towards entry into higher education through the allocation of UCAS points. UCAS tariff points translate your qualifications and grades into a numerical value, which some universities, colleges, and conservatoires may refer to in their course entry requirements.

The number of points they can get depends on how well they performed in their examination i.e., Distinction, Merit or Pass.

UCAS points only apply to ISTD graded and vocational dance examinations at Regulated Qualifications Framework (RQF) Level 3 as listed below.

Grade 6	Tariff points	Intermediate	Tariff points
Distinction	14	Distinction	33
Merit	10	Merit	27
Pass	8	Pass	24

Equivalence of qualification levels

Qualification level	Level	Equivalence
Grade 6	3	Equivalent to A-Level and T-Level standard
Intermediate Foundation	2	Equivalent to GCSE standard
Intermediate	3	Equivalent to A-Level and T-Level standard
Advanced 1	4	Equivalent to the first year of a degree or a Certificate of Higher Education or Higher National qualification at Level 4
Advanced 2	4	Equivalent to the first year of a degree or a Certificate of Higher Education or Higher National qualification at Level 4

Grade 6 and Intermediate	Level 3 KS5 (year 12 and 13)	A Levels and T-levels
Advanced 1 and 2, plus Diploma in Dance Education	Level 4 Tertiary, Vocational or Higher Education	1st Year Degree
2nd Year Degree	Level 5 Tertiary, Vocational or Higher Education	2nd Year Degree
Diploma in Dance Pedagogy	Level 6 Tertiary, Vocational or Higher Education	Bachelors Degree

15 Entry conditions and general information

Minimum age

There is a recommended minimum age of 11 years for Intermediate Foundation and 12 years for Intermediate. This is to ensure that candidates are sufficiently physically developed to safely meet the demands of the syllabus.

Entry conditions

Entries must be submitted via a teacher who holds a Full Teaching membership with the Imperial Society of Teachers of Dancing.

Prior learning

Intermediate Foundation is an optional examination. Each qualification, other than Intermediate Foundation, must be achieved as an entry requirement to the following examination. Exemption from the Intermediate and Advanced 1 examinations may be obtained if the candidate is a student who already holds an equivalent Intermediate or Advanced 1 ballet certificate from an Ofqual approved dance awarding body. Application for exemption must be made in writing to the Examination department ukdanceteachers@istd.org or InternationalTeachers@istd.org prior to the examination session.

Language

All exams and assessments are conducted in English.

Summary information

Candidates should be entered in pairs. Where there is an odd number of candidates, the extra candidate should be entered with a pair to make a group of three.

Examination	Number of candidates	Age	Time allowances		
			1 candidate	2 candidates	3 candidates
Intermediate Foundation	1 – 3	11+	60 minutes	75 minutes	75 minutes
Intermediate	1 – 3	12+	75 minutes	75 minutes	90 minutes
Advanced 1	1 – 3	13+	75 minutes	90 minutes	105 minutes
Advanced 2	1 – 3	14+	90 minutes	105 minutes	120 minutes

Musical accompaniment

The official set music of The Imperial Society of Teachers of Dancing Imperial Classical Ballet Vocational Examinations Syllabus should be used for these examinations. The teacher is responsible for providing a pianist. The use of recorded music is not permitted except for the Set Variations and the Advanced 2 solo.

Music system operators should be seated at a discreet distance from the examiner and where possible should aim to have their back to the examiner. Music system operators cannot be teachers, assistant teachers, or another candidate in the session.

Clothing

A Clothing Guide is available on the ISTD website istd.org/examinations and from imperialballet@istd.org

Jewellery is discouraged. If piercings cannot be removed studs are acceptable. Hair should be suitably styled for classical ballet and candidates should be smartly presented for the examination.

Studio layout for the examination

Examinations should be conducted with the largest dimension being the width of the performance space and the smallest dimension being front to back. Mirrors in the studio should be completely covered or made opaque. Examiners require a table and a comfortable chair. Teachers should also provide a bell for the Examiner to ring when they are ready for the candidates to enter the studio at the start of the examination.

16 Qualifications

This section sets out the required teaching and learning content and how they should be delivered. The learning and teaching content for each qualification in the specification is set out in a similar way.

Learners should take examinations only once the learning and teaching content have been covered in full. The syllabus is designed to develop broad strengths and abilities for all candidates. There are two pathways available for candidates to accommodate differing physical strengths and capabilities: Option A and Option B.

These options are designed within the context of industry needs, for inclusivity and safe dance practice. It is therefore advisable for candidates to follow the option most suitable for the individual. The teachers/candidates must follow **one pathway only throughout the exam.**

17. Scheme of Assessment: Vocational Examinations

Method of assessment

Vocational Graded Examinations are assessed by an Examiner who is recruited, trained, and monitored by the ISTD.

ISTD Examiners:

- are selected for their expertise and undergo rigorous training which continues throughout their career for marking both face-to-face and remote examinations
- create a welcoming and reassuring environment at the exam venue, ensuring a positive experience for candidates
- complete a check with the Disclosure and Barring Service (or equivalent body where available) and adhere to ISTD policies and procedures, including equality and diversity, safeguarding and data protection

In the examination the examiner awards a mark of between 0 and 10 for each component (shown on the accompanying grid). A mark of 0 indicates that nothing worthy of credit was presented for assessment.

The examination is divided into sections and each section consists of several components which are individually assessed and aggregated to give the section total. The total number of marks available in the examination is 100.

Vocational Grade

Title of component	Available marks
Section A – Technique	
Barre and centre practice	10
Port de Bras through the examination	10
Adage	10
Pirouettes	10
Petit Allegro and Petit Batterie	10
Allegro	10
Pointe work / Virtuosity	10
Section total	70
Section B – Presentation, Musicality & Response	
Variation	10
Artistry and musicality	10
Approach to free work, Syllabus knowledge and theory	10
Section total	30
Overall total	100

Determining a grade for vocational qualifications

To reflect the need for competence across the range of components, a candidate will **not** attain a grade if:

- 20% of the marks attainable or below are given for any **one** component
- 40% of the marks attainable or below are given for any **three** components

If all components are achieved, then the overall grade is indicated as follows:

Grade	Marks
Distinction	80-100 marks
Merit	65-79 marks
Pass	50-64 marks
Not attained	0-49 marks

Mark scheme

Each component of the assessment is shown on the grid as a column and broken down into mark bands, each of which has a descriptor. The descriptor indicates the quality that is expected in the candidate's evidence for that mark band. The indicative content for each component of assessment is exemplified or stated at the bottom of each column/group of columns.

Mark bands

The lower mark in each band indicates that the student has just met the requirement described in the band, the upper mark indicates that the evidence is clear but that the student has not quite met the requirements set out in the next mark band.

The candidate is marked against all components of assessment

Classification of results

Candidates receive both a final mark and an attainment grade. It is not expected that a candidate in a particular attainment grade will necessarily demonstrate all of the characteristics listed in that band but will demonstrate most.

Examination Information, Quality Assurance, Appendix & Resources

18 Examinations and quality assurance

This section focuses on the administrative requirements for delivering the examinations and related quality assurance processes.

Exam booking information

Exam bookings are only permitted to be made by Full Teaching members of the ISTD who have active memberships and conduct themselves in accordance with the Member Agreement/Professional Code of Conduct.

www.istd.org/documents/rules-and-standing-orders/

The examinations take place either at the exam venues hosted by the registered members such as the teacher's dance studio or at the ISTD Exam Centre sessions. Details of how to book an exam, cancellation fees, guidance, and exam regulations are available on:

Quality assurance

Quality assurance is a set of policies and procedures the Society have in place to ensure that our examinations and assessments are inclusive and accessible, and students completing our qualifications are issued a fair grade based on their performance. Our quality assurance processes are there to safeguard the integrity of our qualifications by ensuring that high standards are always delivered.

The detailed information about the quality assurance of our qualifications and the related policies can be found at www.istd.org/quality-assurance/.

For further guidance please contact the Quality Assurance department at csqa@istd.org.

Inclusivity and accessibility of examinations and assessments

The ISTD is fully committed to promoting an environment where all individuals are encouraged to achieve their full potential and develop their skills in dance and in examinations and we encourage teachers to maintain an open approach towards the different abilities offered by all their students.

Reasonable adjustments

We are committed to providing fair access to our assessments for candidates with specific needs by putting in place access arrangements and reasonable adjustments. A reasonable adjustment is a process that is made before a learner takes an assessment. It ensures that they have fair access to demonstrate the requirements of the assessments taking account the needs of individual learners. However, it would also not be deemed reasonable to make changes to assessment standards or requirements as this would undermine the effectiveness of the qualification in providing a reliable indicator of the knowledge, skills and understanding of the candidate.

Special consideration

Special consideration is given after an assessment has taken place for learners who have been affected by adverse circumstances. The Society has a process in place for special consideration for candidates who participated in an examination but may have been disadvantaged by temporary illness, injury or indisposition, or adverse circumstances which arose immediately before or during the examination.

Enquiries and appeals about results

The Society endorses the principle of the right to enquire about a result awarded to a candidate. If a teacher has genuine cause to believe that the result cannot possibly be correct, the teacher can appeal within the published timescales outlined in the Enquiries and Appeals About Results Policy. We ensure that enquiries are dealt with swiftly and fairly within the specified timescales.

Malpractice

Malpractice refers to acts that undermine the integrity and validity of assessment, the certification of qualifications, and/or that may damage the authority of those responsible for delivering the assessment and certification.

We take any form of malpractice very seriously. Registered Members and candidates must follow the requirements set out in this specification, exam regulations and all other ISTD policies about the delivery of our exams. In cases where Registered Members or candidates have committed malpractice, a sanction or penalty may be given.

Results and certification

Quality Assurance will issue learner results and certificates direct to the primary organiser unless requested otherwise. All learners will be issued with a report sheet containing the marks for each component; successful candidates also receive a certificate that shows the qualification title as well as the subject and level that they have been examined in. We aim to release results and issue the qualification documents in line with the schedules on our Customer Service Policy on our website.
