

Tap Silver Award recommended playlist 2022

Notes for Teachers:

This is the recommended music playlist which can be used as an alternative to the set music for this examination. Where more than one track is listed for a particular exercise, it is the teacher's discretion as to which track to use. Teachers may also use a mixture of the original set music tracks and the playlist tracks, as long as they are the correct tracks for the specified exercises. The BPM is to indicate what is suitable for the exercises, you may use a speed app or edit the music.

For long introductions the music can be cut to give 2 or 4 bars in, please do not cut the music to finish for the specified number of candidates dancing the technical work, as it is sometimes permissible for examiners to see the exercise again. However, it is permissible to cut the amalgamations if you wish.

Please ensure that candidates have listened to the whole track in class, so that they are aware of how the music progresses and feel free to adapt to any odd phrases that may be present in the music (i.e. wait for longer).

Exercise	Track	Artist	Album	BMP range
